Says Cardin Built Up System When Other Medicines Failed, Believes It Saved Her Life.

Hendersonville, N. C.—Mrs. M. A. Pendleton of B. E. D. is this place, writes. I wish to state that before having taken Cardin, my condition of health was all run down and had been lost ever since my marriage twenty-two years ago. My body weighed 167 pounds. My average weight is 130 pounds. I had such awful pains at times I could hardly go... I had severe pains in my back and abdomen and could scarcely do my work... I could not lift anything heavy.

In November 1913 I began taking Cardin. I thought I would give it a trial much to my family doctor—

and set the date for an examination of me. I saw my improvement after taking the first bottle... I am now fat and well in March this year I weighed 128 pounds... Your Cardin built up my system when all other medicines failed. I feel and look like a different person.

I am still... prouder of me to my friends... for I can truly say I believe it saved my life. My relief from all pain has been permanent.

If you are run-down in health and need a tonic, take Cardin, this woman's tonic. It will help you.
